# INFINI RADIOFREQUENCY MICRONEEDLING

INFINI is unique technology that puts you in control of your procedure. You control the treatment depth and energy levels to enable a multi-layered approach for customized treatments, regardless of skin type or tan. Now you can provide the best solution that will keep your patients returning and referring you to new patients.

**EACH TREATMENT SESSION PLACES 50,000+ MICRO-COAGULATION ZONES.**

### WHY INFINI WITH RF ENERGY?

- Creates thousands of coagulation zones
- Precise energy delivery
- Automatic settings
- Safe on all skin types
- Low cost consumables
- Minimal downtime (makeup after 24 hours)
- Easy to delegate
- 34 gauge microneedles for patient comfort

# TECHNOLOGY BREAKTHROUGH OF THE DECADE

### MICRONEEDLE RF TREATMENT PRODUCES WELL DEFINED ZONES OF COAGULATIVE DAMAGE

Infini is clinically proven, with studies to back the technology. The histology images below show the discrete coagulative injury zones in the dermis while sparing the epidermis. The natural healing process replaces the damaged zones with new collagen and elastin.

Ex vivo human tissue shows epidermis is left intact, while variable depth coagulation zones are present.

## WHAT PHYSICIANS ARE SAYING

"I've been involved in the laser device business for many years. When it really came down to the science, I believe INFINI provides the most tightening for the effort and least amount of downtime."

Jason Pozner, MD

"I've been using INFINI for about a year, we have been really excited about the results we have seen for acne scars\* and neck\* rejuvenation. I think one of the things that stands out with INFINI as opposed to other devices is minimal downtime. You can finish a treatment and just be a little pink the next day."

Joel Cohen, MD
